Professional Summary

Security Analyst with 2 years of enterprise **SOC operations** experience, specializing in **SIEM engineering**, **incident response**, and **threat detection** across large-scale enterprise environments. Proficient in **Splunk Enterprise Security**, **Microsoft Sentinel**, and **CrowdStrike Falcon EDR**, with expertise in **MITRE ATT&CK**-driven **threat hunting**, **IOC/IOA analysis**, and **SOAR** playbook automation. Experienced in **cloud security** across **AWS** and **Microsoft Azure**, and **digital forensics and incident response**, with a proven ability to reduce **MTTD** and **MTTR** at enterprise scale.

Experience

KPMG India

Security Analyst *Aug 2022 – Jul 2024*

- Delivered 24/7 **SOC monitoring** services across **Splunk Enterprise Security** and **IBM QRadar SIEM** for enterprise and public-sector clients, reducing **mean time to detect (MTTD)** for critical incidents from 4 hours to 42 minutes and decreasing **mean time to respond (MTTR)** by 2.5 hours per event.
- Engineered 35+ automated **detection rules**, correlation searches, and **SOAR playbooks** in **Microsoft Sentinel** to protect sensitive client data and **PII** across financial services engagements, eliminating 250 weekly **false positive** alerts and accelerating **high-severity threat containment** by 3 hours per incident.
- Hunted **advanced persistent threats (APT)** targeting client infrastructure by mapping adversary tactics to **MITRE ATT&CK** TTPs; correlated **IOCs** across **EDR** telemetry, firewall logs, and **network packet captures** to investigate and neutralize 40+ **security incidents** monthly across KPMG-managed client environments.
- Deployed and tuned **CrowdStrike Falcon** EDR behavioral detection policies across client enterprise networks, blocking 120 confirmed **malware** execution events and 15 **ransomware** pre-deployment attempts over 18 months, ensuring zero lateral movement progression and safeguarding client business-critical assets.
- Built **ML-driven anomaly detection** pipelines in **Python** using **scikit-learn** (Isolation Forest, clustering) on **Splunk**-exported log data to surface insider threats and abnormal access patterns, flagging 30+ high-risk behavioral anomalies that evaded rule-based **SIEM** detection and supporting **risk advisory** deliverables.

Technical Skills

SIEM & Security Platforms: Splunk Enterprise Security (ES), Microsoft Sentinel, IBM QRadar, Elastic SIEM (ELK Stack)
EDR, XDR & Threat Response: CrowdStrike Falcon, Microsoft Defender XDR, SentinelOne, Palo Alto Cortex XDR, Carbon Black, SOAR (Cortex XSOAR)
Threat Intelligence & Hunting: MITRE ATT&CK Framework, Threat Hunting, APT Analysis, IOC/IOA Correlation, VirusTotal, Recorded Future, Sigma Rules
Vulnerability & Risk Management: Nessus, Qualys, OpenVAS, CVE/CVSS Triage, Penetration Testing, Malware Analysis, Threat Modeling (STRIDE)
Cloud Security: AWS Security Hub, Microsoft Azure Defender, GCP Security Command Center, CSPM, CASB, IAM
Networking & Protocols: TCP/IP, DNS, DHCP, HTTP/S, SMTP, TLS/SSL, VPN, IDS/IPS, NGFW, Wireshark, Nmap
Programming & Query Languages: Python, PowerShell, Bash/Shell Scripting, SQL, SPL, Regular Expressions
AI/ML for Security: Anomaly Detection, Behavioral Analytics, scikit-learn, Isolation Forest, NLP-based Log Analysis, AI-Assisted Threat Hunting, Jupyter Notebooks

Projects

ThreatPulse AI-Driven SOC Simulation & Threat Detection Platform | *LMU*

- Built an AI-powered SOC simulation that ingests security events and autonomously detects, enriches, and triages threats, replicating real L1/L2 analyst workflows end to end.
- Integrated **VirusTotal** and **AbuseIPDB** APIs in **Python** to enrich **IOCs** in real time, scoring indicators and auto-prioritizing alerts to slash manual lookup effort and speed up triage.
- Mapped detected behavior to **MITRE ATT&CK** techniques and generated analyst-ready verdicts, demonstrating detection engineering, threat intelligence, and automation skills directly applicable to live SOC operations.

Education

Loyola Marymount University Los Angeles, CA, USA

Master of Science, Computer Science *Aug 2024 – May 2026*

Silver Oak University India

Bachelor of Technology, Computer Engineering *Jul 2020 – Apr 2024*
